LIBRARY & INFORMATION CENTRE
COLLEGE OF VETERINARY AND ANIMAL SCIENCES
UDGIR-413 517. DIST. LATUR

ANNUAL REPORT :2009-10

INTRODUCTION :- Library of College of Veterinary and Animal sciences , Udgir has been established in the year 1987 with the inception of the college. It is functioning to cater to the literature needs of the students and staff of this college. The demands of the scientific literature are growing day by day with the inception of new courses and the pattern of examination in different subjects. The demands for literature and information from academic community have compelled to strengthen the library by literature as well as human resources and to organize effective services to them. With the minimum resources and inadequate untrained staff , the library is giving better services to the students and staff of this college.

A. Library Collection as on 31-3-2010 :

3. Internet Service :

An independent Internet Service Unit has been established in library . The Internet Connectivity has been provided for the students with 10 computers with BSNL BROAD BAND Since October 2008.

1320 Students have availed the Internet facility during the year under report. The Internet service is provided to the Department of Veterinary Surgery , Gynaecology and Veterinary Medicine through the library .

D. Library Staff :

The library staff is perhaps the most important component to play an important role in the developmental activities of college. Presently there is no adequate trained library staff as per the ICAR/ UGC Standard and Norms to run the library. The library is manned by only one professional, one Agricultural Assistant , One Laboratory Assistant and one class IV peon. The supporting staff is pulled from other establishment and always transferred from the library. The frequent transfer of the supporting staff causes the interruption in the library services. The lacuna in the trained , professional library staff causes the loss of books and interruptions in the library services. The proposal for the appointment of trained library staff was approved in the College Advisory Council Meeting and was submitted to the MAFSU for the consideration and approval .

Existing Staff Position :

1. Librarian & Information Officer	:	1
2. Technical Assistant (Library)	:	Nil

REQUIREMENTS OF LIBRARY AND INFORMATION CENTRE

1. Supporting Library Staff :

Introduction :-The Library of College of Veterinary and Animal Sciences, Udgir is functioning since 1987 to cater to the literary demands of the Academic Community. The demands of the scientific literature are growing day by day with the inception of new courses and postgraduate studies in different disciplines in veterinary and animal sciences subject. The educational and research activities in this college have been intensified as the students and staff are starving hard to solve the problems of the rural poor community in Latur district in the field of agriculture and animal husbandry. They needs to support with the latest advanced information technology.

The library of College of Veterinary and Animal Sciences, Udgir is under staff. Many administrative problems are raised due to the non availability of technical trained supporting library staff. There is workload with the issuing of books , recording and maintenance of newspapers , recording of periodicals, newsletters, maintenance of back volumes of periodicals, maintenance of book stack. All these

works are routine and we can not postpone or avoid these work. Library is essential service centre. The staff working in library needs to be attentive in the work. The existing supporting staff is non-professional having no attachment to the responsibility of the library and its service because they are purely temporarily deputed in the library and their services are liable to transfer to other departments. The lacuna in the trained , professional library staff causes the loss of books and interruptions in the library services. The proposal for the appointment of trained library staff was approved in the College Advisory Council Meeting and was submitted to the MAFSU for the consideration and approval .For the efficient library services it is essential to have supporting library staff as per the I.C.A.R. / U.G.C. Norms.

2 Library Building :-

The Present library space is not sufficient to cope up with the needs of the readers. The reading material is growing day by day. There is no sufficient space to accommodate the material. There is no space for the furniture. A new Internet Unit has been started in the library with the 10 computers. The old Reading hall for the staff has been converted in the Internet unit. The periodical section is shifted in the students reading room, where there is no safety for the periodicals. Now there is no space for the staff members to sit and read. Some book cases are also placed in the students reading hall. There fore it is essential to have a spacious, well equipped library building to provide spacious area for the book stack , periodical section , staff reading hall , Internet computer units , etc.
